

BANKERS GO TO HEAR MEYER

Members of Ogden Clearing House Attend War Finance Meeting

Members of the Ogden Clearing House association went to Salt Lake this afternoon on the invitation of Eugene Meyer, Jr., managing director of the war finance corporation, to attend a conference of the officers of the Utah agency of the corporation relative to the affairs of the corporation and the economic conditions of the western country. Representatives will also be present at the conference of the livestock industry, the sugar industry and the agricultural industry.

OGDEN MEN GOING
Among those that will go from Ogden are A. P. Bigelow of the Ogden State bank and president of the Ogden Clearing House association; Charles H. Barton of the National Bank of Commerce; P. Healy of the Commercial National bank; Frank J. Stevens of the Security State bank and Warren L. Watts of the Utah National bank. W. H. Wattis of the Utah Construction company and of the Utah Idaho Sugar company who was invited to attend was unable to accept the invitation because of being called to Portland, Ore., yesterday afternoon.

Mr. Meyer is scheduled to arrive in Salt Lake this afternoon accompanied by Gerald C. Henderson, general counsel for the corporation, and Mr. Meyer's assistant, Mr. Harrison. Mr. Meyer will hold a number of private conferences with Utah interests and will also discuss publicly the operations of the corporation.

DINNER TONIGHT
A dinner will be tendered him at the Alta club at Salt Lake this evening where the guests besides the Salt Lake and Ogden Clearing House associations will include representatives of the industries that have been benefited by the credit extensions of the war finance corporation.

Tomorrow morning he will hold a series of meetings with first the Utah agency of the corporation, with the officers of the Bankers' Loan company, the Sugar Beet Finance corporation and the Western Livestock Loan company. In the afternoon at 2 o'clock Mr. Meyer will appear at the Hotel Utah to discuss publicly the results achieved by the corporation and its aims. It is expected that several hundred livestock producers in the city for the livestock show, in addition to others of the community concerned with the administration of this work, will attend this meeting.

WINKLER GOING TO WOOLMEN'S SESSION

Ernest Winkler, inspector of grazing of district four of the forest service, left this morning for Cokeville, Wyo., to attend the annual meeting of the Lincoln County Wool Growers' association. He expects to return in a few days.

FORESTERS ENTERTAINED

Mr. and Mrs. C. N. Woods entertained Roy Headley, assistant forester, C. E. Rachford, inspector of grazing of the forest service, and Major E. W. Kelley, inspector of fire control, roads and trails of the forest service, at headquarters at Washington, District Forester R. H. Rutledge and his wife and other local officials of the forest service, at the Rutledge home, 1020 Twenty-fifth street, last night. Card games were played and refreshments were served.

THE HIGH FAVOR

—in which those institutions, which serve well, are held by the public as the real criterion of their usefulness. The Sego Milk Products Company judging by the continued and increasing sales of Sego Milk, is ably performing a public service, and hence merits a high place in the public esteem. Held in such high favor, the Sego Milk Products Company pledges the same efficiency and constancy, the same excellence and merit, both of its product and its business policy, in the future. You may continue to rely on the creamy richness of Sego Milk and also on the sound business judgment of the Sego Milk Products Company which enables you to get the very best milk at the lowest cost.

Instead of
FRESH MILK

Evaporated to the consistency of cream—then hermetically sealed and sterilized—that's why Sego Milk is rich and creamy with the natural flavor.

CREAM'S ONLY RIVAL

Merry-go-round Arouses Ire of Park Neighbors

The harsh tones of the merry-go-round at Lorin Park may delight the kiddies during the summer months, but they fail to bring pleasure to the families who live in close proximity to the amusement park, according to a petition submitted today to the city commission in which they ask that the joyous notes of the whirling be silenced, or at least muted.

The petition is signed by more than 20 property owners who say: "We call your attention to certain nuisances that exist in connection with the park. We mention the extremely large organ on the merry-go-round. It keeps people awake, often until midnight, in a locality where there are many workers, whose sleep is interrupted."

We consider the annoyance occasioned by the baseball games all that the residents should be required to submit to without enduring the merry-go-round nuisance."

The petitioners also complain that the automobile parking grounds at the park are not large enough to accommodate the many cars and that motorists park their motors upon their lawns.

The petition will be acted upon by the commission at the Monday evening meeting.

Arrangements are now being made for a triangular debate between Ogden, Box Elder and Davis high schools. The negative teams from each school will travel. Ogden's team will journey to Box Elder, the latter's team is scheduled to compete with Davis, whose negative squad will argue with our affirmative team. Each team will select a judge of the local contest and a judge to travel with the team. A member of the faculty of either the university or the agricultural college will be chosen as the third judge.

Prof. Henry Petersen of the Utah Agricultural college addressed the junior and senior classes Wednesday, on the subject of college education. Those present were asked to fill out cards indicating their choice of vocations. Mr. Petersen emphasized the importance of a college education and urged the young men and women to do their utmost to secure one.

Prof. Chris Christensen will lead the grand march at the cadet hop this evening, assisted by the eight sponsors and their partners. The number taking part will be limited to cadets and their young ladies.

A settlement of the Weber banner difficulty was effected Thursday. On orders from the principals of the two schools, Weber's pennant was returned and our football trophies, etc., were returned.

The junior play is now coming along in fine style. The producing part has been perfected and those in charge of the details are concentrating their efforts on the advertising. A stunt was pulled off down town Thursday afternoon that showed the numerous pedestrians that the Juniors "know their oil." "Beans" Smith, a pickpocket, was captured by Patrolman Leon Keller while attempting to decamp with a baby carriage from Wright's store. His object in choosing such an article is unknown but, anyway, he escaped from Keller and after an exciting chase was recaptured, much to the amusement of the crowd.

PERMIT ISSUED FOR POWER SITE SURVEY

A permit has been issued by the federal power commission permitting the Utah Power & Light company, with headquarters at Myton, to make the necessary surveys for a conduit, dam and power plant.

The permit does not allow the company to do any constructing or operating, which right can only be secured from the federal government by a license.

The permit was received this morning at the forest service building, according to F. J. Martin, district engineer.

CARD OF THANKS

With sincere appreciation for the many acts of kindness, beautiful floral tributes, and to the participants in the beautiful service rendered our departed husband and father, we extend our grateful acknowledgments.

MRS. E. H. BENSON
FLORENCE BENSON
DELLA BENSON.

THERE IS NO SUBSTITUTE FOR CONSCIENTIOUS SERVICE

Cost is important but service and satisfaction take first place. Here at the American are concentrated under one roof all the elements and departments of a fully equipped grocery establishment.

A modern electric bakery where nothing is permitted that would not be acceptable to the most critical housewife. A meat shop where quality is the yardstick, where is offered the market's best at prices usually charged for lower grades.

A rapidly expanding mail order business that adds nothing to expense but much to volume. Every department working hand in hand with facilities for the most economical handling makes possible the fact that we can and do meet the price issue every day and render complete consumer service.

YOU ALWAYS SAVE AT THE AMERICAN BUT NEVER AT THE SACRIFICE OF QUALITY.

NEVADA MINES TO BEGIN WORK

W. H. Taylor, chief clerk of the Railway Mail Service, returned last night from Ely, Nev., where he has been on an inspection trip.

Mr. Taylor said that mining was undergoing revival in Nevada and that mining men were taking a more optimistic view of the situation. Twenty men were put to work in the flotation department of the mill at McGill and it is expected that before many months many of the larger copper mines will be working at capacity.

Considerable difficulty is being experienced by the contractors in delivering the mail from Ely to Eureka which town has been isolated due to the suspension of the railroad running from Palisade to Eureka.

The game of checkers was played in Egypt centuries before the Christian era.

\$47,000 FOR FOREST ROADS

The state of Utah is to receive in the near future \$35,244.27 for roads and district four of the forest service is to receive a total of \$47,022.96 for road and trail work, according to advice received by District Engineer J. P. Martin this morning from Washington, D. C.

The sum to the state represents 25 per cent of the allotment fund resulting from the deferred grazing receipts for the year and the amount to the forest service which is to be divided between Colorado, Nevada, Idaho, Arizona, Utah and Wyoming, represents 10 per cent of the same fund.

Of the 10 per cent allotted to the forest service for road and trail work, Arizona gets \$23,560; Colorado, \$28,720; Idaho, \$19,941.56; Nevada, \$6,773.42; Utah, \$14,127.76; and Wyoming, \$6,601.19.

Of the 25 per cent allotted to the various states Arizona will receive \$58,201.16; Colorado, \$55,170.01; Idaho, \$52,044.18; Nevada, \$18,867.94; Utah, \$35,344.27; and Wyoming, \$31,838.22.

TREMONTON CLUB TO HAVE QUARTERS

(Special Dispatch)
TREMONTON, March 31.—Tentative plans were made here Thursday evening at a meeting held by members of the Tremonton Commercial club for the opening of rooms for the organization. Thomas Waldron gave an estimate of the probable cost of opening and maintaining the rooms, which was said to have been favorable to the members.

John W. Peters, former mayor of Brigham, was the principal speaker at the meeting, which was followed by a "get-together banquet."

The Commercial club members pledged their support to a May Day festival, which is being planned as a community event.

NO ACTION TAKE IN CHRISTENSEN CASE

No action had been taken today by Marlow J. Christensen, former principal of the Utah school, charged with murder for the shooting of Lloyd Bybee at Uintah last week, to obtain his release from the county jail upon bond. It was said, "It is expected, however, that action will be taken by his attorney within a few days."

Christensen is now confined within the jail proper and is subject to the same regulations as other prisoners.

Geologists say in prehistoric times there were 31,000,000 different animal forms on earth.

—constructive merchandising

—embracing the finest collection of clothes we have ever shown—featuring the popular four-button and sport models, in a selection of fabrics and patterns and expert workmanship frequently found in custom-made clothes.

POCATELLO MAN SLASHED IN FIGHT

POCATELLO, March 31.—An argument which arose over a poker game and finally ended in a fight resulted in the landing of Francisco Castro in the county jail, charged with assault with intent to commit murder. The attack was alleged to have been made upon Carlos Oretas yesterday afternoon.

Both men were using their fists when Castro drew his knife and slashed Oretas on the side of the neck. The wound is not thought to be serious.

DIVORCES GRANTED TWO OGDEN WOMEN

After testifying upon the witness stand that her husband tore off her clothes and frequently cursed and swore at her, Mattie M. Craig was granted a decree of divorce in the district court from Charles M. Craig. Mrs. Craig testified that her husband also wrongfully accused her of associ-

ations with other men.
The court awarded her the custody of three minor children and alimony of \$40 a month. The couple was married here October 28, 1913.
Judge James N. Kimball awarded a divorce decree to Delphia Quigley from John H. Quigley after Mrs. Quigley had claimed that her husband deserted her ten years ago and has not lived with her since. The couple was married in Dayton, Tenn., October 3, 1909.
